

**PRODUCT COMPARISON:**

	<b>Timeslips 2020</b>	<b>Timeslips Premium</b>
Feature Set	Timeslips 2020 has a set of features that will not change and <b>does not include</b> features such as timekeeper week view of slips and ability to transfer payments to other clients.	Timeslips Premium has more features than Timeslips 2020 and will continue to add new features. Premium features not in Timeslips 2020 include timekeeper week view of slips, the ability to duplicate slips to multiple clients, enhanced security and ability to transfer payments to other clients.  <b>Undo multiple bills and find and replace text are 2 new features that are only available in Timeslips Premium.</b>
License count	Must purchase number of licenses you will need. No additional licenses available after 9/30/2020.	You can add pro-rated licenses during the year; at the end of each yearly contract you can reduce the number of licenses based on the needs of the firm.
Program updates	Timeslips 2020 will not have feature enhancements after 10/1/2019.	Timeslips Premium will have regular updates, enhancements and new features and service releases on a regular basis.
Support / Training	Sage will not provide support or training on Timeslips 2020 as of 9/30/2020. All support and training will continue to be available from certified consultants.	Sage will provide support and training for all Premium products. There are 3 levels of premium and the level dictates how much support/training is included in the annual subscription fee. Additional support/training is available for purchase through consultants.
Purchase Costs	Sage Timeslips 2020 is considered a software package that is subject to all state and local taxes. Certified consultants must charge sales tax to all customers located in their state.	Sage Timeslips Premium is considered an "on line purchase" and is subject to internet sales tax. This rate may be less than state and local taxes on software that is a one-time purchase.
Product Cost	Sage Timeslips 2020 is more expensive to purchase than the Sage Timeslips Premium although it is a "buy it once ... own it forever" charge.	Sage Timeslips Premium is less expensive; it is an annual recurring charge which will cost more over time due to the inclusion of technical support and enhancements.
Product Levels	Timeslips 2020 has 1 product; no included support; no included updates.	Sage Timeslips Premium has 3 levels of support: Silver, Gold, Platinum. Each level has a different amount of support which dictates the annual price. The basic (silver) package includes 3 support incidents.

# Sage Timeslips features

When choosing the Sage Timeslips Premium product, you will be able to take advantage of features that will make billing and time and expense capture more efficient than ever before. Sage Timeslips Premium works with the Windows 10 operating system.

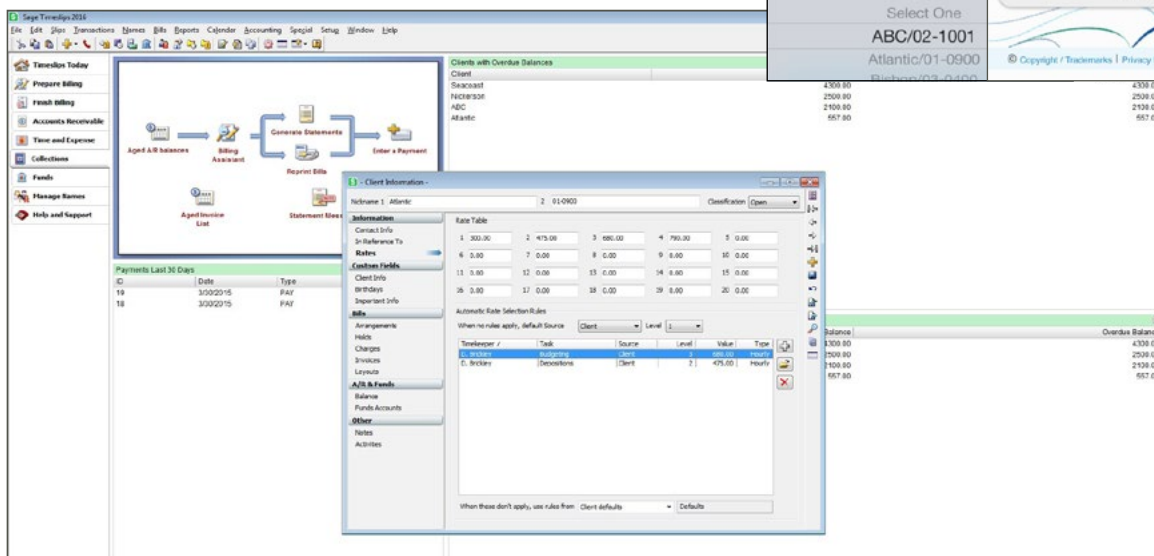

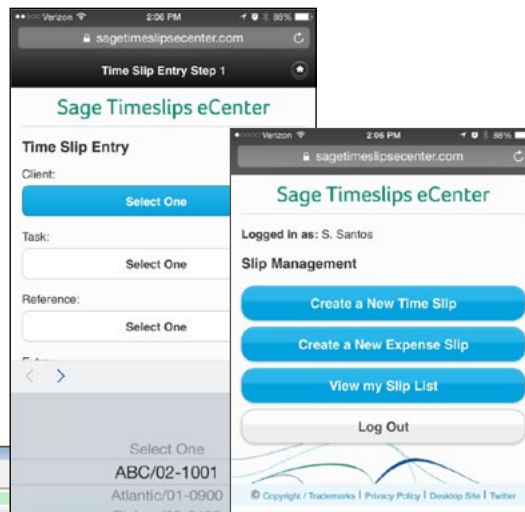

## Intuitive time and expense entry

Sage Timeslips makes it easier than ever to capture all of your organization's billable time and expenses—even when timekeepers are in the field.<sup>3</sup> With its well-established feature set and user-friendly interface, Sage Timeslips is an incredibly capable and flexible solution that requires very little time to learn. After a few quick setup steps, aided by the helpful Setup Wizard, a new Sage Timeslips user can easily build a database and store vital information for each client or project in a single location for easy access, billing, and reporting.

In Sage Timeslips, time and expense entries are referred to as "slips." Each slip contains vital information such as the timekeeper name, activity name, client name, rate/price, and time spent or quantity. Slips may also contain optional information such as activity description, estimated time, references, and markup/adjustment amounts.

## Sage Timeslips makes entering time and expenses easy and efficient

- Track all or specified tasks performed on your workstation effortlessly with TimeCapture.
- Accurately track your business' billing progression for your firm, clients or/and timekeepers by using budgets.
- Enter time and expenses away from your desk with cloud-based time and expense slip entry, available for internet-enabled mobile devices.<sup>4</sup>
- Enter time and expenses while away from your desk with Sage Timeslip eCenter, compatible with most INTERNET-enabled mobile devices.

- Customize in-product terminology to match that of your industry—no more office communication confusion.

<sup>4</sup> Remote access of Sage Timeslips requires a subscription to Sage Timeslips eCenter.

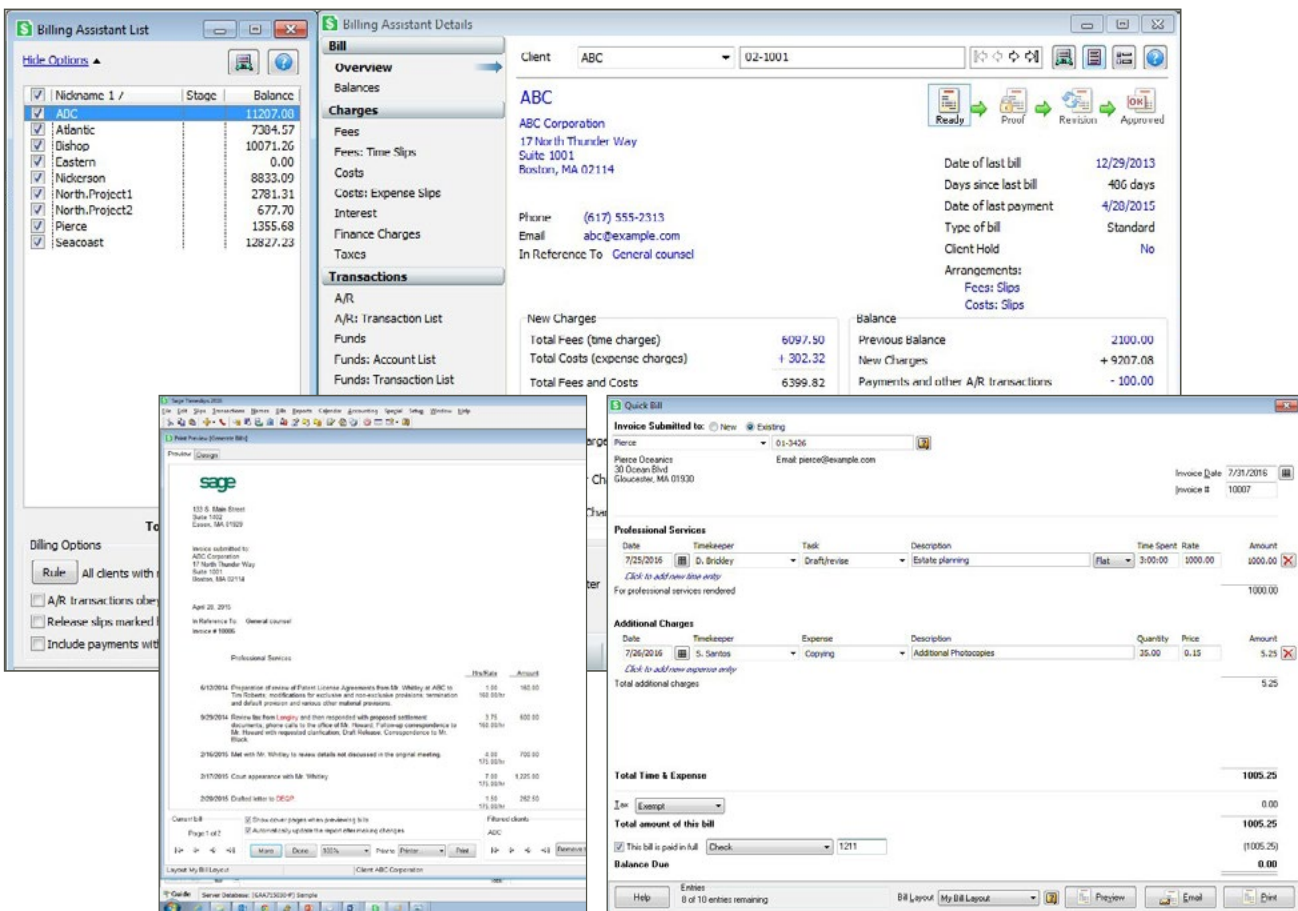

## Simple, fast billing and accounts receivable tracking

Sage Timeslips enables quick and easy entry of bill payments and management of the billing process. Bills may be printed for all clients or for a subset of clients, for activities within a particular date range, for individual timekeepers, or by a number of custom field criteria. And, using the built-in design tool, bills are fully customizable.

Ensure all your clients' bills are accurate and delivered when you need them using the billing assistant feature. Review, edit, and even generate invoices for single or multiple client in one, centralized location. The billing assistant's efficient layout and informational presentation provide the perfect platform for ensure you get the most out of your billing.

The powerful bill design tool displays a full bill on screen with simple drag-and-drop customization. Drop in your logo, add and remove fields, change fonts, and reorder sections to get just the look you—and your clients—want. Best of all, the design displayed on screen is what the printed bill will look like, so there are no surprises.

Once you've designed your invoice to your liking, you can easily summarize bill details on a bill layout cover page, allowing you to provide a clear, concise overview of each client's bill. This cover page can summarize client-specific details, such as the amount due and current balance, in any format you choose.

Quick Bill only available with Sage Timeslips Premium

### Quick Bill

Sage Timeslips Premium's Quick Bill<sup>®</sup> functionality allows fast and easy billing from one centralized location. From Quick Bill, you can create or bill existing clients, add time and/or expense slips all from the same location. Taxes and bill layouts can be selected and previewed without leaving the comfort of the Quick Bill function. Quick Bills can be printed and/or e-mailed to customers with the click of a button.

5 Quick Bill only available with Sage Timeslips Premium.

## Reporting for better business insight

Sage Timeslips reporting helps you understand and project the performance and financial well-being of your organization. With more than 100 predefined reports, Sage Timeslips helps you better manage the productivity of your staff, monitor the time needed to complete tasks, and adjust rates to ensure profitability. But that's only the beginning of the business intelligence features available through Sage Timeslips. The software also offers simple drag-and-drop functionality to customize reports and graphs for information such as slips, clients, timekeepers, tasks, expenses, and transactions. Most reports can be printed to Microsoft Excel or Word.

Plus, with the customizable dashboard highlighting key business indicators—you can access an interactive selection of Sage Timeslips data including slip totals, budget figures, accounts receivable transactions, and account balances. Sage Timeslips Today allows you to design your own Sage Timeslips control panels, complete with instant access to the data you need most.
